NOTICE OF ALLOWABILITY

Drawings

1. The drawings filed on September 8, 2003 are acceptable subject to correction of the informalities as indicated below:

The lines, numbers and letters are not uniformly thick and well defined, clean, durable, and black (poor line quality/hand-written). See 37 CFR 1.84(i).

In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" (37 CFR 1.121(d)) and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Annotated Drawing Sheets

Art Unit: 2831

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Reasons for Allowance

2. Claims 9-19 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 9-18 are allowable because the prior art alone or in combination does not teach or fairly suggest a stylus for a pen-based computer comprising two or more arms on a body which assume a spread/protruding position when the stylus is removed from a pen slot, and maintain a pinched/receding position when placed in the pen slot, taken in combination with the other claimed features.

Claim 19 is allowable because the prior art alone or in combination does not teach or fairly suggest a stylus for a pen-based computer comprising a gripping area which is made of pliant material which contracts when placed in a

pen slot and expands when removed from the pen slot, taken in combination with the other claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
